- Current Federal Government employees.

## Salary Determination

- The ODNI uses a rank-in-person system in which rank is attached to the individual. A selected ODNI candidate or other Federal Government candidate will be assigned to the position at the employee's current GS grade and salary.
- For a selected non-Federal Government candidate, salary will be established within the salary range listed above, based on education and experience.
- A current Federal Government employee, selected for a detail, will be assigned to the position at his or her current grade and salary.

## Component Mission

The National Counterterrorism Center (NCTC) leads our nation's effort to combat terrorism at home and abroad by analyzing the threat, sharing that information with our partners, and integrating all instruments of national power to ensure unity of effort. The Center serves as the primary organization in the United States Government (USG) for analyzing and integrating all intelligence possessed or acquired by the USG pertaining to terrorism and counterterrorism, and its Director serves as the Counterterrorism Mission Manager. NCTC also serves as the central and shared knowledge bank on known and suspected terrorists and international terrorist groups, as well as their goals, strategies, capabilities, and networks of contacts and support. In addition, NCTC conducts strategic operational planning for counterterrorism activities, coordinating and integrating the efforts of departments and agencies across the Federal Government.

## Major Duties and Responsibilities (MDRs)

- Provide strategic leadership, vision, and direction for NCTC's information technology and analytic support acquisition programs. Work with the ODNI CIO to ensure NCTC's plan and vision complements planned activities, projects and plans of the overall ODNI.
- Exercise an established governance structure to develop, implement, and assess performance against a portfolio-based investment strategy that is consistent with architecture and technology roadmaps and broader IC Technology initiatives.
- Work with the NCTC Enterprise Management Office to develop recommendations and allocate available funding to system and application projects in accordance with priorities established by the NCTC senior management team. Work with EMO to ensure the program plan is executable and meets required funding execution deadlines
- Serve as the Accountable Officer for Information Technology assets, including internal-use software; develop and implement a repeatable methodology for auditability and external reporting/oversight.
- Collaborate and liaise with the ODNI CIO, CT Community partners, IC agencies, the Executive Office of the President, members of Congress, and other major stakeholders as necessary

regarding IT investments, performance, and policy matters, as well as actively participate in the IC CIO Council.

- Manage a large and diverse workforce including staff officers representing multiple agencies within the Intelligence Community and a varied mix of contractors.
- Stay abreast of applicable laws, directives, and policies that impact the center's IT systems and data operations, including necessary data safeguards.
- As a part of the Director's senior leadership team, participate in setting strategic organizational direction and making corporate resource and policy decisions aligned with the evolving NCTC mission.

## Mandatory and Educational Requirements

- Demonstrated senior executive experience managing all aspects of multiyear complex programs, including resources, strategy, policy, and technology as well as knowledge and experience executing large budgets and multiple contracts for technology development.
- Extensive experience in successfully communicating - - both written and verbal - - the strategic and tactical aspects of complex technology programs and concepts to diverse audiences of varying levels of technical competency to include external IC seniors, the White House, Members of Congress, and internal NCTC customers.
- Mastery knowledge of IT theories, principles, concepts, standards, and practices to serve as expert and consultant to senior officials regarding information technology programs. Demonstrated experience performing and overseeing the system integration of complex systems, applications and interfaces to ensure high reliability and availability of critical mission capabilities.
- Executive experience in establishing and maintaining organizational vision and goals tied with demonstrable examples of personal success and accountability in meeting those goals. Proven ability to link vision and goals to those of higher level organizations
- Extensive high level experience with a variety of contract venues and working closely with contracting service providers, contracting officers and Contracting Officer Technical Representatives (COTRs) to provide contract oversight and management including the development of requirements documents, statements of work or objectives, award fee criteria and determinations, and delivery acceptance terms.
- Expert analytical and critical thinking skills, including the ability to think strategically and identify needs, requirements, and develop innovative recommendations and solutions for improvement.
- Demonstrated ability in leading significantly staffed and diverse (SNIS/GS, discipline, and government/contract) organizations.
